Posters

Posters present your most beautiful memories and unique moments in a particularly way. Only as poster many motives come into one's own: the memory of the last holiday, the beautiful wedding photo or portraits of your loved ones. The child's drawing becomes a stylish living accessory on the wall, your advertising motif becomes a high-quality decoration and photographs attract much attention as exhibits. For printing various materials with different characteristics and appearance are available.

Material	Description/Characteristics	Colour	Panel Thickness	Optional Accessories
 Polycanvas	Matt woven polyester · flame retardant	alike canvas look with a high degree of whiteness	260 g/m ²	· Canvas frame · Wall Frame Q-Frame®
 Multisol® D	Matt knitted polyester · flame retardant	white	205 g/m ²	· Wall Frame Q-Frame® · Metal tubing · Aluminium clam rail
 Foam board	Extruded foam board made of rigid PVC · made of plasticiser-free moulding compounds · both sides matt white surface · weatherproof, robust, mould- and putrefactive-resistant · flame retardant · Note: Because of strong solar radiation material expansions are possible.	white on both sides	3 mm (1400 g/m ²) 5 mm (2300 g/m ²) 10 mm (5000 g/m ²)	· Wall mount · Clamp mounting · Plate mounts
 Aluminium composite, white	Both sides with aluminium-coat, varnished white and black PE-core · very stable, impact- and break-proof, high flexural rigidity · lightweight and economical	white on both sides, with black PE-core	3 mm (3500 g/m ²)	· Wall mount · Clamp mounting · Plate mounts
 Aluminium composite, gold/silver, brushed	Both sides with aluminium layer, gold/silver, brushed on both sides and black PE-core · transparent coated · very stable, impact- and break-proof · high-quality metal and grinded appearance	gold/silver, brushed on both sides, with black PE-core	3 mm (4000 g/m ²)	· Wall mount · Clamp mounting · Plate mounts
 Acrylic glass	Extruded acrylic glass panel made of Polymethylmethacrylat · high gloss, hard surface · absolutely clear and very translucent · high resistancy against light, ageing and weather impacts, lighter than real glass · easy to clean, recyclable · flame retardant	clear (transparent)	3 mm (3600 g/m ²) 5 mm (6000 g/m ²) 10 mm (11900 g/m ²)	· Wall mount · Clamp mounting · Plate mounts

For completion there are different variants available:

	Canvas frame · rigid wooden frame made of European softwood · natural, Profile depth 20 mm · additional supporting braces are used when length larger than 90 cm · incl. wooden wedges for easy canvas retention		Aluminium clamping rail · high-quality clamping rails made of aluminium for fast banner change · silver-color, anodized, profile width 25 mm · incl. plastic end-caps, suspension eyelets for self-assembly, · clamping rail profile with slip guard made of rubber foam		Wall mount stainless steel · for wall mounting of posters on panels/signs with holes · incl. plastic washers as additional scratch protection · set of 4: 4 spacers, 4 screws with dowels and Allen key
	Wall Frame Q-Frame® · light and very flat wall frame made of silver anodised aluminium · frame depth: 15 mm · delivery content for self-assembly: frame, corner connector kit, wall hooks · (frames over 2.50 m will be divided and delivered incl. profile connectors)		Clamp mounting stainless · for wall mounting of posters on panels/signs without hole drilling · set of 4: 4 spacers, 4 screws with dowels and Allen key		Plate mounts · for wall mounting of posters on panels/signs · set of 2: 2 front parts, 2 back parts, 4 pan-head screws with dowel
			Metal tubing · diameter: 13 mm · color selection: black, white, gold, silver		Wall mount metal · self-adhesive wall holder for posters · set of 2: 2 wall mounts

All sizes are approximate. As we are constantly developing our products we reserve the right of changing technical issues and dimensional deviations.
