

BEACHFLAG T

BEACHFLAG T

... TABLE SAIL IN A STYLISH DROP SHAPE

Beachflag T - these small size advertising sails, placed on tables or counters, enjoy an increasing popularity. Applied in bars, restaurants, meeting rooms or in retail, they perfectly point out special sales offers and promotional campaigns.

Intendedly, the finishing requires no header tape. With a height of 55 cm, Beachflag T is one of the big ones among the small format advertising tools.

Single sided or double sided finishing is available. Double sided finishing allows for the presentation of one or two different designs on the front and reverse side. In any case, your advertising message makes an impression from both sides.

BEACHFLAG T HARDWARE
