Photo Wallpaper Basic & Photo Wallpaper Select

Regardless of what atmosphere you wish to create in your office, shop, guest or waiting room - the high quality, non-woven wallpaper Basic and Select will provide you with that perfect ambience. The photo quality print offers you versatile and creative possibilities to decorate chosen surfaces or rooms. The printing on individual rolls allows for possibility of entire wallpapering with company logo, texts and photo images.

The new Photo Wallpaper Basic provides an inexpensive entry level for variety of applications. For highly frequented areas we recommend the use of fire retardant wallpaper Select in the fire class B1.

For easy handling the individually printed rolls will be numbered before delivery. The 105 cm wide rolls allow for wallpapering of large areas in short time and with less seams in the image. In case of decoration change the wallpaper Basic & wallpaper Select can easily be removed from wall without leaving residue, long after drying up and without using extensive peelable or steaming methods.
