# Sledges

Sledges personalised with logos or brilliant graphics in high-resolution are great advertising materials during the winter season and encourage your customers to go for some wintry outdoor activities. They guarantee positive feedback on every trail, in ski hotels, shop windows or at events. Sledges with printable seat surface are available from 1 piece – without minimum quantity.

You can choose between two models: the nostalgic horn sledge or the classic Davos sledge. Your graphics get printed on a sturdy and weather proof PVC banner which gets spanned over the seat.

## Davos sledge

Classic wooden toboggans

Their long slatted seat surface offers a lot of space to sit on and to advertise. Blue protection caps at the front provide an increased impact protection.

## Horn sledge

Nostalgic sledge design

A horn sledge is the perfect companion to go sledging. The comfortable sledge has enough space for two passengers and will supply driving pleasure for hours on every slope.

**Dimensions (LxWxH)**

100 cm x 34 cm x 24 cm (27 cm)

100 cm x 34 cm x 24 cm (38 cm)

**Seat surface (LxW)**

71 cm x 27 cm

58 cm x 27 cm
